

Bajaj Hindusthan Sugar the only Indian Sugar Company to rank among Top 10 Global Sugar Producers on the S&P Global Platts Report

Lucknow, June 17, 2024: Bajaj Hindusthan Sugar stands out as the only Indian sugar company featured in the June 2024 Sugar Market Report by S&P Global Platts. The company secured the 10th spot globally in terms of sugar production for 2023-24, among a total of 20 rankings.

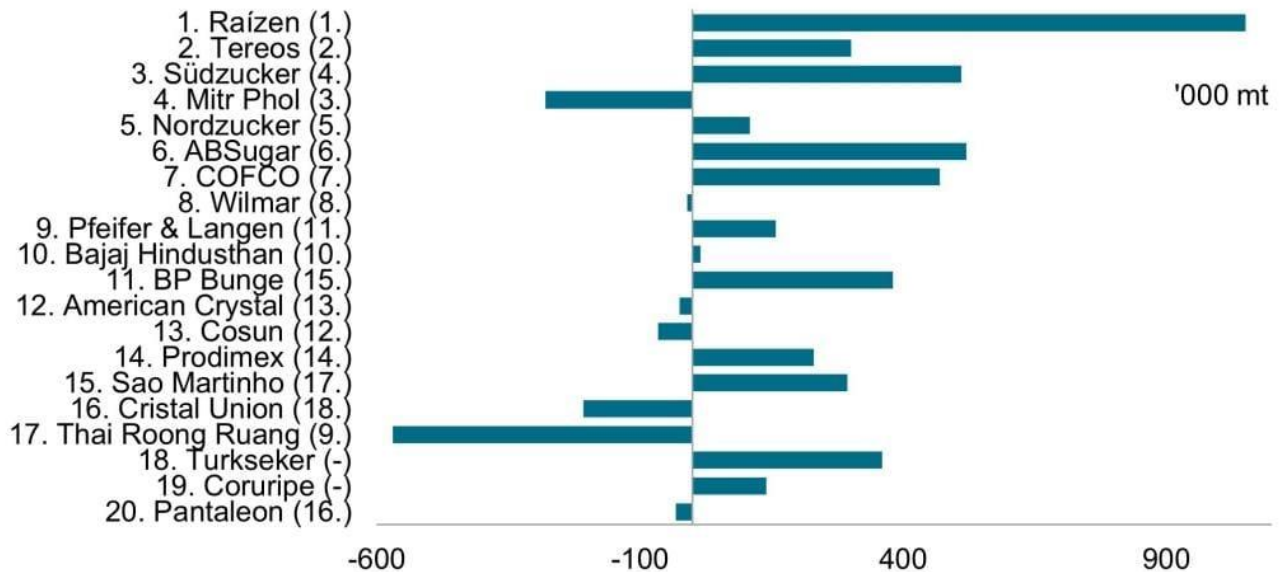

According to the report, sugar production in Asia dipped amid poorer weather conditions in the wake of El Nino, which led to companies losing their rankings. However, Bajaj Hindusthan Sugar has retained its ranking along with a marginal increase in its sugar production for FY23-24.

Acknowledging the accomplishment Bajaj Sugar's Managing Director, Shri Ajay Sharma said, "The report is a testament to our operational excellence and forward-thinking approach to overcome industry challenges. Bajaj Sugar is a 92 years old company incorporated with a vision to make India self-reliant in terms of our sugar needs and today we are humbled to retain India's no. 1 sugar producer position on a global forum. We are continuously striving to improve our sugar recovery internally and also empowering our cane growers with the required knowledge to improve the cane quality externally."

About Bajaj Hindusthan Sugar Ltd:

Bajaj Hindusthan Sugar Limited ('Bajaj Sugar') has the largest installed production capacity for sugar and ethanol in the country. Our 14 sugar mills and 6 distilleries are all located in the state of Uttar Pradesh and employ about 10,000 people. Nearly 500,000 farmers supply sugarcane to us. The company has an aggregate sugarcane crushing capacity of 1.36 lakh tonnes per day and a distillation capacity of 800 kilolitres per day. Bajaj Sugar is also a leading manufacturer of ethanol, the green fuel which stands to revolutionise India's fast developing energy market.
